STI Data Validation Exercise before UCSR Entry

Lily Alexander

March 26, 2018

Abstract

Summary. This is a document to validate and check variables before they are integrated into the UCSR.

1 High-level codebook for all variables

```
----------------------------------------------------------------------------------------------------
disease                                                                                       Disease
----------------------------------------------------------------------------------------------------

                  type:  string (str3)

         unique values:  1                              missing "":  0/38

            tabulation:  Freq.  Value
                            38  "HIV"

----------------------------------------------------------------------------------------------------
collapsed                                                                                   Collapsed
----------------------------------------------------------------------------------------------------

                  type:  string (str3), but longest is str2

         unique values:  1                              missing "":  0/38

            tabulation:  Freq.  Value
                            38  "No"

----------------------------------------------------------------------------------------------------
lead_author                                                                               Lead Author
----------------------------------------------------------------------------------------------------

                  type:  string (str12)

         unique values:  2                              missing "":  0/38

            tabulation:  Freq.  Value
                            28  "Marseille, E"
                            10  "Rodrigues, R"
